793 N. MAIN ST., GLEN ELLYN, ILLINOIS

- I. **Call to Order:** President Vivoda called the regular meeting of the Board of Education to order at 7:30 p.m.
- II. **Pledge of Allegiance:** President Vivoda led in the Pledge of Allegiance and welcomed meeting attendees.
- III. **Roll Call** Members present were Kevin Cosgrove, Terra Howard, Debbie Hoffman, John Kenwood, John Marcheschi, Carol McElvain and John Vivoda.
- IV. **Public Participation** President Vivoda asked if there were any requests from the public to address the Board. There was no public participation.
- V. **Presentations and Reports**
 - A. 2006 Levy Presentation: Ed Kula, Interim Superintendent for Finance, Facilities and Operations gave a PowerPoint presentation that outlined the first steps in the process utilized by the District for determining the 2006 levy. The presentation included an overview of the parameters for making our levy request, components of the expected increase in the 2006 tax levy including PTELL, CPI, EAV growth and new construction factors, and a rationale for the percentage increase. Mr. Kula explained that the Board has been working with PMA Financial to develop a five year projection of the District's fund balances. PMA's findings indicate that if today's trends continue, the District is likely to start using its cash balances to maintain its current levels of staffing, programs and employee benefits because the expenditures are projected to increase at a faster rate than the CPI (3.4% for the 2006 levy year). This 2006 levy request reflects an amount less than last year's request, but is enough to ensure the District reaches its maximum levying capacity. The District's tentative levy of \$36, 708,983.00 represents an increase of 9.5% over last year's extension; the District actually expects to receive an increase of approximately 5.23%. Below is a breakdown of the fund account allocations:

General Fund:	\$32,472,000.00
Life Safety Fund:	\$0
IMRF:	\$400,000.00
Social Security:	\$400,000.00

Monthly Revenue/Expenditure Summary Report Overview October 2006

Revenues

Overall our revenues are in line with the prior year's experience. There are some areas that reflect a wider variance from the prior year which are due to timing of revenues being released from the State and Federal agencies, along with larger PEP grant awards than previous years in the miscellaneous revenue area. The variance in the interest earnings is due to overly conservative budgeting.

Expenditures

Overall our expenditures are the same as the prior year's experience. There are some areas that reflect a wider variance from the prior year. This is due primarily to the timing of payments being made to vendors as projects progressed through the summer and to the timing of special education tuition billings being paid.

Title: Ten-Year Health/Life Safety Survey - 2006
Contact: Phyllis A. Hanna

Background: School Districts are required to submit to the Regional Office of Education a Ten-Year Health/Life Safety Survey Report. District 41 is required to file this report by the end of 2006.

Discussion: In anticipation of meeting this deadline, the District engaged FGM Architects in June 2006 to complete this report. The final report for each District property is attached. These reports are based on review of the current Health/Life Safety code as published by the Illinois State Board of Education. Items listed in these reports are subject to final review by the Illinois State Board of Education. A priority code is assigned by FGM to each item listed in the reports. These priorities determine how much time the District has to complete the projects in order to be in compliance: Priority Code a – projects that must be completed within a year from filing of the report, that is, by December 2007; Priority Code b – projects that must be completed within 5 years of filing of the report, that is, by December 2011; and Priority Code c – projects that are architects' recommendations and do not have a deadline for completion.

The current estimated costs for completion of all projects listed in these reports total \$81,468.00. The breakdown is: Priority a: \$17,394; Priority b: \$62,254; and Priority c: \$1,820. Upon reviewing the project listing, the Administration, FGM and the Finance Committee determined to schedule completion of these projects for the 2006-2007 budget year.

Recommendation: For Information Only. Recommendation for approval will be presented at the Board of Education Meeting on December 18, 2006.

Key Objective: Provide resources – people, time and money - to ensure the growth and development of our vision.

Title: Capital Improvements, Summer 2007
Contact: Phyllis A. Hanna

Background: The Finance and Facilities Committee has worked with the Administration and FGM Architects to establish a plan for our Summer 2007 Capital Projects.

Discussion: These projects were prioritized based on compliance with our pending Ten-Year Health/Life Safety Survey Reports, and on review of projects from the previous year that received a high priority but were not completed due to funding issues.

The attached listing briefly describes the nature of these projects. The current estimated construction costs of these projects as listed reach a total of \$1,226,171. In Fiscal Year 2006-2007, the Capital Improvements Projects were budgeted at \$1,500,000. We expect that two of the projects listed will incur additional construction costs due to storm water detention issues. These projects are the Franklin parking lot and the Lincoln playground replacement. There are also three projects listed for which we do not yet have estimated project costs. These are the CSO window replacement, Hadley Fitness Lab floor replacement, and Hadley Gym A cork wall board replacements. We are currently finalizing these estimates, but feel that these projects should remain on the list for bidding purposes, so that we can gather estimated costs for budgeting the appropriate amounts if the projects need to be scheduled in a future year.

As we create a long-range financial plan, we will also allocate funds in 2007-2008 for engineering costs to study storm water issues at all of our campuses, along with pursuing the hiring of an outside contractor to perform a building/site security study.

In accordance with our intergovernmental agreement with the Village of Glen Ellyn, all projects that will have an effect on the exterior of our buildings or sites will be reviewed with the Village. We have scheduled a meeting with Village officials for December 20, 2006.

Key Objective: Provide resources – people, time and money - to ensure the growth and development of our vision.

Once the projects have been approved, and after the meeting with the Village of Glen Ellyn, we would then authorize FGM Architects to begin preparing the bid specifications to complete the projects, with an anticipated bid date of January 2007.

Recommendation: The Administration recommends that the Board of Education approve the Summer 2007 Capital Projects as proposed.

Key Objective: Provide resources – people, time and money - to ensure the growth and development of our vision.
